**Subject: Authorization to release information to GreenSoft Technology, Inc.**

Dear Supplier,

FLIR Integrated Imaging Solutions, Inc. (formerly Point Grey Research, Inc.) is committed to providing its customers with products that meet the highest standards of innovation, performance and environmental safety. Achieving this requires the ability to quickly adapt to new industry standards and environmental declaration requirements, such as:

- RoHS-2 (per EU Directive of 2011/65/EU and EU Directive of 2015/863/EU, which includes 4 new phthalates added on top of the original 6 substances)
- REACH SVHC (per EU Regulation EC/1907/2006)
- California Proposition 65 (per The Safe Drinking Water and Toxic Enforcement Act of 1986)
- Substances of Concern In articles as such or in complex objects (Products) (SCIP – per Waste Framework Directive 2008/98/EC, amended by Directive (EU) 2018/851)
- 5 PBT substances restricted on products/mixtures by the US Toxic Substances Control Act (TSCA)

FLIR Integrated Imaging Solutions has contracted with **GreenSoft Technology** (<https://greensofttech.com/>) to work with our suppliers in collecting component information. As you may be aware, the EU REACH regulation adds new candidates to the Substances of Very High Concern (SVHC) list of materials to be declared every 6 months. Ideally, GreenSoft likes to have Full Material Disclosure (FMD) on as many devices as possible, thus eliminating the need to continually contact you when new substances are added to the SVHC list. **If GreenSoft is not provided with full material disclosure for the components that you sell to FLIR Integrated Imaging Solutions, then it will be necessary for GreenSoft to reach out to you at least two times every year.** A timely reply is appreciated.

Pressure from the market and regulatory agencies make this information mandatory for FLIR Integrated Imaging Solutions to collect and provide. In the near future, FLIR Integrated Imaging Solutions will have to decide which suppliers are able to provide not only high-quality, on-time delivery of product and services (per order), but also which are able to support FLIR Integrated Imaging Solutions in its environmental and social responsibilities.

Thank you for understanding our position. We hope that you will continue to support FLIR Integrated Imaging Solutions and GreenSoft by providing the required information.

Should you have any questions or concerns, you may contact the following individual at FLIR Integrated Imaging Solutions directly: Cindy Tachihara, Compliance Specialist
